

12kW¹

Automatic Home Generator Systems

DON'T LET ITS SIZE FOOL YOU

Gain the peace of mind that comes with owning a home standby generator without compromising your home's curb appeal. Our GE 12kW¹ home generator is now 50% smaller than our previous 13kW¹ model. Powered by our commercially-rated Briggs & Stratton Vanguard™ engine, this compact generator produces enough power to supply the electrical needs of a home up to 8000 sq feet. More than enough to keep your furnace, lights, sump pump, refrigerator – and your life – running.

Whole-house power with our sleek 12kW¹ is possible with our proven patented Symphony® II power management system. As the smartest, most customizable Power Management system available, this proven technology is the easiest way to give your family unprecedented peace of mind and protection during a power outage.

To learn more, visit www.GEgenerators.com

Backed by 130 years of providing the latest technology, GE is committed to providing peace of mind to our customers. GE is one of the fastest growing home generator system brands in the country and provides a managed whole house solution to back up power. You already trust our brand for your appliances, now you can count on us to keep them running during an outage.

SYMPHONY II

POWER MANAGEMENT TECHNOLOGY

A Smarter Backup Power Solution

The proven patented Symphony® II power controls save you money and put you in control of what you power. Most homes require a larger, more expensive generator to power air-conditioners, refrigerators, sump pumps and lights all at the same time. But with Symphony® II, you can manage all of this and more with a smarter, smaller, more affordable GE generator.

Providing Peace of Mind

Automatic

The Symphony® II Power Management System continuously monitors your home's connection to utility power. The generator starts automatically when there is an outage and shuts down automatically when utility power is restored.

Reliable

GE is a name you know and trust. You can be confident that when you need your home generator, it will perform. Housed inside our durable rustproof enclosure, the Briggs & Stratton premium-grade Vanguard™ engines are designed and engineered to provide long-lasting, reliable power to give your family permanent protection.

Warranty²

5 Year Parts and Labor Limited Warranty

Designed Around Your Life

Sleek Design

Streamlined compact design is 50% smaller than our previous 13kW¹ generator.

Convenient Placement Options

Our 12kW¹ home generator systems can be placed as close as 18" from the home in accordance with the National Fire Protection Agency testing standard.⁴

Electronics-friendly

The system delivers clean, stable power, protecting your computers and other sensitive electronic equipment from damage.

Easy Monitoring

The optional remote monitoring system allows you to check system status without leaving the house.

LED Control Panel

Upgraded easy to read scrolling LED control panel for all generator communications

Durable Enclosure

Galvanneal steel provides years of rustproof, outdoor protection - perfect for extreme weather conditions.

040516	
Fuel Type	Liquid Propane (LP Vapor), Natural Gas (NG)
GE Power Management	Whole House Symphony® II Automatic Transfer Switch
Watts ¹ LP/NG	12,000 (LP Vapor) 10,000 (NG)
Engine	627cc Vanguard™
Operation	Fully Automatic
Voltage	120/240V AC, Single Phase, 1.0pf
Amps (240V)	50.0 (LP) 41.7 (NG)
Alternator	Brushless
Voltage Regulation	Capacitor
Full Pressure Lubrication	Yes
LP Fuel Consumption ³	100% Load (ft3/hr or gal/hr) 83.8 or 2.3 50% Load (ft3/hr or gal/hr) 62.1/1.7
NG Fuel Consumption ³	100% Load (ft3/hr) 172 50% Load (ft3/hr) 117
Weekly Exerciser	Yes
Enclosure	Galvanneal steel with corrosion resistant paint
Hour Meter	Yes
Overcrank Protection	Yes
Dimensions (LxWxH)	28" x 26" x 37.2"
Weight (Generator Only)	318 lbs.
Warranty ²	5 Year Parts and Labor Limited Warranty
Included Extras	Hour meter, battery charger, built-in base and synthetic oil

Not for Prime Power or use where standby systems are legally required, for serious life safety or health hazards, or where lack of power hampers rescue of fire-fighting operations.

¹ This generator is rated in accordance with UL (Underwriters Laboratories) 2200 (stationary engine generator assemblies) and CSA (Canadian Standards Association) standard C22.2 No. 100-04 (motors and generators)

² Warranty details available at gegenerators.com

³ Fuel consumption rates are estimated based on normal operating conditions at ½ load. Generator operation may be greatly affected by elevation and the cycling operation of multiple electrical appliances - fuel flow rates may vary depending on these factors.

⁴ Installations must strictly comply with all applicable codes, industry standards, laws, regulations and provided installation manual. Running engines give off carbon monoxide, an odorless, colorless, poisonous gas so it is important to keep exhaust gas away from any windows, doors, ventilation intakes or crawl spaces. The installation manual contains specific instructions related to generator placement in addition to NFPA 37, including the requirement that carbon monoxide detectors be installed and maintained in your home
